

THE NATION'S BUSINESS

During 1921

*A Narrative Account of a Significant
Period for American Commerce and
Industry, Written by Its Leaders*

Primarily an index of The NATION'S BUSINESS, yet its headings and sub-headings will give the reader of discernment a composite picture of the swiftly moving drama of the stirring year of 1921, a year in which business emerged into a new order of things. Ancient landmarks were swept aside, many of them never to be set up again. What of new relationships is for 1922 to tell.

Each month The NATION'S BUSINESS, on the scene of action, clearly and faithfully reported in its pages these facts and their momentous problems. The record is authoritative. It has been written for the most part by the very men who were the moving powers behind the facts they chronicle.

For the convenience of our readers who keep a file of The NATION'S BUSINESS, this index has been prepared.
